

Enterprise Planning Consulting Services

Hackett Technology Solutions Hyperion / Oracle

Addressing the Challenges of the Plan

Do you struggle with the fundamental challenge of budgeting and planning? Are you using spreadsheets and custom solutions to manage budgeting and planning? Would you like to decrease error-rates and produce dynamic reports using an easier, more streamlined method? Are you ready to consider more strategic approaches?

Hackett Technology Solutions Hyperion / Oracle Enterprise Performance Management Consulting Services can help you implement Oracle's Enterprise Performance Management / Hyperion solutions in a collaborative, integrated, event-based planning process using proven best practices.

The Hackett Technology Solutions Difference

Hackett Technology Solutions is a leading business and technology consulting firm that enables companies to achieve world-class business performance. We provide strategic implementation and integration services for Oracle, PeopleSoft, and Hyperion applications, as well as business intelligence solutions.

Hackett Technology Solutions Best Practice Implementations (BPIs) enable organizations to:

- Adopt the same business processes that work for top-performing organizations
- Sustain process improvements through technology
- Mitigate risk
- Compress planning time
- Ensure alignment between technology solutions and business objectives

Deeper Explanation of Our Services

Our experienced staff of consultants has deployed over 300 planning projects, including 30+ System 9 projects across the country and across a broad range of industries. We have been involved with all new releases of Hyperion Planning solution line through testing and development.

Our approach utilizes our BPI methodology, which focuses on phased implementations with quick deployments to core groups, so our clients can benefit from results quickly:

- Implementation support for a new Hyperion Planning customer.
